Rally-Proven Technology

EASY SELECT 4WD

5-speed M/T with Easy Select 4WD
Mitsubishi's rally-proven Easy Select 4WD lets you move from smooth 2WD highway performance to rugged 4WD off-road traction without breaking stride. With shift-on-the-fly

2H (2WD high range)
The choice for normal road situations. Only the rear wheels receive power, providing a smooth, quiet, fuel-efficient ride.

4H (4WD high range)
For rougher roads or hazardous conditions. All wheels receive torque, giving better traction to keep you out of trouble.

4L (4WD low range)
The best choice for sure off-road handling. Four-wheel performance shifts into low gear for maximum traction through mud or sand.

Limited Slip Differential - Hybrid Type
The hybrid-type LSD gives excellent off-road

Red-lit high contrast instrument meter and multi-information display

Single In-Dash CD/MP3/WMA Player/Tuner/iPod-ready with Auxiliary-in/USB port and Bluetooth Connectivity

• Class-leading legroom • Dark fabric seats

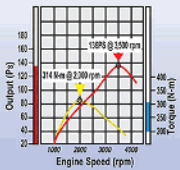

Dual SRS airbags

Aesthetically pleasing and ergonomic black and gray dashboard

The 2.5-liter Common Rail Direct Injection Diesel engine which produces 136 Ps with the demands of high speed motoring. Aside from being able to produce ample power and torque, this breakthrough engine assures better fuel efficiency and reduced emissions.

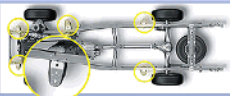

Maximum Power **136 Ps / 4,000 rpm**

Maximum Torque **324 N-m / 2,000 rpm**

The J-line is clever engineering designed to shorten the wheelbase and maximize interior space. The increased space results in class-leading legroom for maximum comfort. The shortened wheelbase allows for a class-leading minimum turning radius of 5.9 meters making the all-new Strada easy to maneuver and a joy to drive.

New body mount for improved ride comfort and lower NVH levels

To bring comfort to a whole new level, the all-new model comes with a new body mount that provides a more car-like comfort. The new body mount also provides a smoother driving and riding experience as it lessens noise from the outside, vibration from the road, and all-around harshness.

The comprehensive safety system of the Strada offers all the occupants greatly improved all-around collision protection. Mitsubishi's exclusive RISE body construction incorporates front and rear crumple zones with reinforced beams to absorb collision force and direct it away from the vehicle's interior. The engine and drive components also absorb energy, preventing further damage from reaching the cabin.

3.8 lock-to-lock steering

Anti-lock Braking System (ABS)

Electronic Brake-force Distribution (EBD)

Tightest in its class **5.9m** Turning radius

• Deeper and larger cargo bed

• Bed liner with cargo hook (Dealer Option)
